

CV_Giovanni Caron

Profile and key skills

Extensive experience in General Management, especially in Management Accounting, Planning and Control, Budgeting, Financial Accounting; strong IT knowledge, Italian native language, fluent in spoken and written English, basic knowledge in German and French.

Material organizational and analytical competence, with a special focus on the management of start-up companies, special projects and reengineering. Enjoys project management and has strong conceptual and process skills. Wide experience in business planning both for internal and external use.

Contract professor at the University of Rome Tor Vergata and external lecturer in the Medea Master for the Enrico Mattei School of ENI, he carries out business training activities in Italy and abroad, mainly for ENI Corporate University, designing and delivering courses in both Italian and English in the field of Business Economics and related subjects.

Analytical skills, results orientation, problem solving, team working, work organization and classification of cross-functional problems are the basic skills which, combined with a strong dose of common sense, support the technical preparation to achieve the targets.

These skills are combined with a significant mastery of IT tools both in terms of individual productivity and in terms of ERP and integrated management systems in general. He has always been involved in the IT area, dealing with the reorganization and rationalization of accounting and management cycles and flows, usually in connection with implementation and integration of new applications, also assuming the responsibility of project manager in the analysis and implementation of management software.

Current activity

He works as freelance in the area of business consulting and training services.

He is a contract professor at the University of Tor Vergata of Rome teaching Economics in the bachelor degree course in Biotechnology and Applied Economics in the master's degree course in Biotechnology (both 48 hours courses). He is external lecturer at Medea Master (Master in Energy and Environmental Management and Economics, MBA aimed at graduates in technical-scientific and economic disciplines) of the Enrico Mattei School of ENI in collaboration with the University of Pavia with a 36-hour Planning & Control course.

He is also working with some startups in the sector, services, insurance, biotechnology and tabletop gaming, dealing with business modeling, planning and development, as well as with the drafting of financial forecasts and business planning.

Education

Graduated in Economics and Business administration) Università degli Studi "La Sapienza" di Roma with maximum marks (110/110 scored on the final exam).

Diploma di Maturità Classica (Classical High School diploma).
