---

Salvatore Bianco is a Medicine Doctor, specialist in angiology, with a long experience in research methodology, and the development of medicines, medical devices, and food supplements. Salvatore worked for 25 years in different Pharma Companies (CIBA Vision, Servier Italia) and was head of clinical development at Angelini Pharmaceutical. He is a contract Professor at the University of Rome Tor Vergata where he teaches Medical Device Regulation and Development. Since 2014 he has been the Clinical Expert in AKROS Bioscience where he is responsible for the preparation of the clinical documentation for medical devices, according to the EU regulations (first the MDD and now the MDR 2017/745). He has solid expertise in meeting the requirements of the regulations and experience in interacting with major European notified bodies for legacy devices and new CE registrations.
