

GIUSEPPE RECCHIA

With a degree in Medicine and a specialization in General Surgery and Pharmacology, he has carried out research activities at the Renal Transplant and Dialysis Center of Verona Hospital and as a Research Fellow at the State University New York - Downstate Medical Center in Brooklyn, NY.

Head of the Pharmacovigilance Unit at Glaxo spa (GlaxoWellcome, GlaxoSmithKline) since 1984, he subsequently held the positions of Clinical Research Director and New Product Development Coordinator at the Verona Research and Development Center. From 1993 to 2018 he served as Vice President, Medical & Scientific Director GSK Italy.

In January 2019, he co-founded daVinci Digital Therapeutics, Italy's first innovative startup for research and development of digital therapeutics. In 2021 he co-founded DigitalRehab and daVi DigitalMedicine, innovative startups for research and development of digital health technologies. With these startups he is engaged in the research, development, and transfer of ideas into Digital Health Technology products (particularly Digital Therapeutics) and their delivery to patients worldwide and their physicians.

Since 2023, he has been a member of the Technical Scientific Committee of the Parliamentary Intergroup on Digital Health and Digital Therapies.

He is Vice President of Health and Healthcare Trends Foundation (formerly Smith Kline Foundation) and editor of New Trends magazine since 2018.
